

NITRO FLASHBACK

STRAIGHT & NARROW

Displays/Promotion

08 April 2005 - Cable Price NZ
- New Machinery Launch

Cable Price NZ Ltd invited us to their Invercargill Branch to do a display during a new machinery launch. This was great fun as around 50 of their biggest clients throughout Southland and Otago enjoyed the live entertainment, fine dining and refreshments along with a comprehensive audio visual presentation of the latest state of the art earth moving equipment and trucks.

Our job was to mingle amongst their clients and answer any questions they may have in relation to the car or racing in general. Some of these guys are experts in machinery and many of their questions were very technical. They enjoyed the fact that it was something a bit different and seemed to get a kick out of reminiscing about days gone by.

When all the formalities were over we had several volunteers to sit in the car and get their photos taken. Once one does, every one wants a go and we all had a good laugh.

Thanks to Bruce Forrester and the team at Cable Price for inviting us along - we enjoyed ourselves immensely.
